Profile

I am a dedicated front-end developer with a strong understanding of the development process. I am motivated by a passion for learning and excel at addressing complex challenges through innovative technology solutions. With expertise in Angular, React.js, Next.js, and Django framework, I have successfully developed unique, consumer-centric products. I thrive in dynamic environments where I am inspired to continuously enhance my knowledge and foster creativity.

Professional Experience

Eclectics International   Position: Frontend Web Developer   03/2023 - 08/2024
- Developed a portal for a financial institution to streamline user and beneficiary onboarding processes, as well as loan account management.
- Designed and implemented an Angular-based School Data Capture Portal to efficiently onboard and manage schools.

Dawah Nigeria   Position: Frontend Web Developer (Volunteer)   10/2023 - 01/2024
- Contributed to modifying the Dawah Play web application using React.js.

Token Technologies   Position: No code Developer Intern   03/2023 - 06/2023
- Utilized a no-code platform to implement and optimize solutions, ensuring alignment with design specifications and user stories.

Sav IT Africa Ltd   Position: Web Developer Intern   09/2022 - 02/2023
- Collaborated in creating user-centric, functional web applications utilizing Django, JavaScript, HTML, and CSS.

Skills

- Strong knowledge of web technologies, including HTML5, CSS3, Tailwind, Bootstrap, and JavaScript (ES6+).
- Experienced in translating wireframes and mockups into functional features using AngularJS, ReactJS, and Next.js.
- Proficient in working with RESTful APIs and managing asynchronous requests.
- Skilled in implementing Python code and working with the Django framework.
- Excellent problem-solving skills with the ability to independently troubleshoot complex technical issues.
- Strong critical thinking skills to identify and address operational inefficiencies.
- Dependable in supporting and enabling team efforts to achieve long-term sustainable development.
- Adaptable and quick to integrate into new team environments, effectively contributing to key project milestones.
